

TEDDIES ARRIVE AT HULL ROYAL INFIRMARY

Following the successful launch at James Cook Hospital in Middlesbrough, a large team of Teddies duly arrived in the A&E Department of HRI accompanied by Assistant Provincial Grand Master John Trout and a small team of Freemasons.

This is a continuation of the project throughout the Province, whereby Freemasons will provide A&E Departments at the major hospitals with a supply of teddies for distribution to children in a distressed condition having been admitted for treatment.
