

We had a Dream

Keith Anderson; the Thonborough Lodge's current Master has always had a great approach and commitment to masonry. Recently, Keith was diagnosed with Motor Neurone Disease (MND).

How best could the lodge support Keith and his wife Janet coping with MND?

We hit on the idea of arranging a Classic Vehicle Show and Sunday 3rd August 2008 was selected for the event.

The goals of the event were to:

- show support for Keith and Janet in their time of need,
- increase public awareness of MND and
- raise funds for the MND Association (Yorkshire Dales Branch).

Eighty-six (86) tractors, motorcycles, and cars pre-booked for the show and they came from as far south as Solihull and as far east as Bridlington. They came from Timperley in Cheshire and Blyth in Northumberland

Taking advantage of the good weather, more than one hundred thirty (130) vehicles were ultimately displayed.

When all the moneys have come in the net total for the event will be about £2,000.

A day to be remembered

A dream made reality for Keith and Janet.
